

Insights: Reporting Made Easy

For businesses to evolve, scale and succeed, they need to be able to look at data in different ways—and quickly change what they see and how they see it. Vehicle program administrators in particular win by boosting operational efficiency when managing and prioritizing core tasks:

Access Data with a Simple Tool to Boost Productivity

With Insights, you can get more out of your vehicle program and driver data, leveraging our intuitive workflow that simplifies building and scheduling custom reports.

Find Exactly What You Need

- Streamline approval reviews and compliance checks.
- Automate reporting cadence and notifications.
- Automatically send reports to team members and leaders.

Use Report Builder to Generate & Export Custom Reports

Creating the custom reports you need on demand is easier than ever. Put an end to running and cross-checking multiple data sets by configuring report builder with the specific criteria and data elements that matter to you, including trip details, driver details, reimbursement and mileage history.

- Build any number of custom reports on demand.
- Easily access previously saved personal or company-wide reports .
- Customize and automate report cadence.

Use Report Schedule to Automate Delivery at Regular Intervals

Insights delivers flexible options for running and sharing custom reports at the cadence of your choice. Set-and-forget parameters save time and control access in the most efficient way possible, enabling administrators to select access levels and cadence without having to log in. This empowers businesses to automate routine reporting of daily compliance checks, weekly GPS % reviews, monthly manager approval reviews and more.

- Run and selectively share customer reports automatically at the frequency of your choice.
- Select from daily, weekly, monthly or even a customized schedule.
- Specify an audience to receive the report.
- Audiences will receive an email notification with a direct link to the report.

Using Insights is Intuitive and Easy

Insights ensures you are optimizing your motus vehicle reimbursement program by providing unmatched data, business insights, and reporting that is configurable and on-demand.
